LONG COUNT!

en.wikipedia.org/wiki/Mesoamerican_Long_Count_calendar

PIKTUN, is found in the electron-asteroid geography in the earth as arrows (eros), and sigos, in particular the chicagos, sligos of northern Ireland, lion paw sri lanka, and keros of central greece. The center of earth's gravity responsible for the "disintegration" of the roman empire.

GALATUN, is the galapagos!!

K'INCHTUN, ??? 😡

OLAUTUN, myr related to mirrors and mirage, and perhaps the mining of silver and AG vacuum environmental technologies. Dai is an old word, the day summer died... Allo's eve may be (OLAUTUN) in reference to the Orion through Belgian Congo asteroid gravity tangent.
